

**KNOX-BOX®**  
**Rapid Entry System**  
Helping the Fire Department Protect Your Property

**KNOX®**  
Serving Fire Departments Since 1875

**KNOX-BOX® access provides faster emergency response without forced entry damage.**

## **Knox-Box Rapid Entry System**

Fire departments across the country use the Knox® System to prevent costly forced entry damage while protecting property and lives. Knox key boxes, vaults and cabinets hold building entrance keys, electronic access cards and vital emergency information. Knox key switches and padlocks provide fire department access through property gates.

As the property owner, you purchase a KNOX-BOX® device then mount it near your building entrance or property gate according to fire department guidelines. Firefighters use a unique high security Knox® Master Key to open KNOX-BOX devices in their jurisdiction.

For additional information and/or ordering information, please call your Fire Department or visit [www.knoxbox.com](http://www.knoxbox.com).
